

Lamele Decorative

Lamele de aluminiu extrudat create pentru inchideri exterioare si interioare, cu control de lumina si vizibilitate, permitand intotdeauna ventilarea instalatiei de la un capat la altul.

Lamele Decorative

Tipuri de lamele:

Obloane
 Obloane decorative
 Obloane clip
 Miniobloane
 Lamele tubulare
 Lamele decorative
 Lamele acoperire fatade:
 -sub forma de profile
 -ondulate in forma patrata

Categoriile obtinute pe bancurile de probe

Rezistenta la sarcina de vant

Oblon (Proba de referinta 2,0 m)

(EN 13659): Clasa 6 (max.)

Minioblon (Proba de referinta 1,3 m)

(EN 13659): Clasa 5

Lamele tubulare (Proba de referinta 1,3 m)

(EN 13659): Clasa 6 (max.)

Probe realizate conform Normativei UNE 1932:2001

Finisaje

Vopsire culori (RAL, pestrit si texturat)

Vopsire imitatie lemn

Vopsire antibacteriana

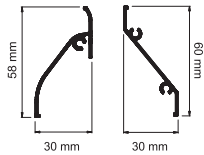

Anodizat

Tipuri de lamele	Lungime maxima recomandata*	A/C	B/C
Oblon Ref. 2747	2,0 m	71%	44%
Oblon decorative Ref. 2749	1,5 m	61%	34%
Miniobloane Ref. 2785	1,3 m	55%	39%
Lamele tubulare Ref. 2847	2,0 m	76%	-
Lamele decorative Ref. 9003	6,5 m	86%	-
Oblon clip Ref. 2829	2,0 m	100%	24%
Lamela Profil Ref. 500500	-	-	-

*Conform specificatiilor proiectului, lamele vor putea avea lungimi mai mari (consulta).
